github.com/SilasCundiff

I'm primarily a Frontend developer, but I have experience with Backend development as well as web design.

WORK EXPERIENCE

Jr Frontend Developer

02/2021 to 11/2023

Polyglot Labs

103 S Hill St, Griffin, GA 30223

At Polyglot, I was responsible for updating and maintaining dozens of WordPress sites, both for in house clients, and working for third party's. I also worked on multiple new WordPress sites, developing them using SCSS, Bootstrap, and PHP blocks, from a design to a fully functioning website. Other various work included porting legacy Marketo code to a new React app, creating an in-house tool (React/GoLang) for re-importing FMLS listings into our DBs, SEO optimizations, debugging existing code bases, and moving legacy WordPress sites to new servers.

Retail Specialist

10/2023 to 09/2020

Prohealth Nutrition

McDonough, Georgia

A small retail store that helped to develop my soft skills related to product knowledge and customer interactions. Additionally, I helped them transition to a modern POS system, and set up a SQL database to help them track sales and discontinue dead stock.

SKILLS

WordPress/PHP Block Theme development - 2 years

CSS/SCSS/TailwindCss/Bootstrap - 5 years

JavaScript and React - 3 years

Adobe suite (Photoshop, Illustrator, etc) + Figma - 3 years
