Objective

To obtain a full time job doing what I love:
Designing and Developing websites.

Skills & Education

Core

📄 HTML/SASS

JS JavaScript

⚛️ React

Ai Illustrator

Ps Photoshop

Xd XD & Figma

Education

I am a Southern Crescent Technical College graduate with diplomas in **Programming** and **Website Design & Development**.

During my time at SCTech, I took **several online courses** on Udemy to supplement my learning. As such, I **had a years experience learning React** before taking the college course for it.

Additional Skills

- Express
- Redux
- NextJS
- Tailwind

These are only my core skills. My website includes an exhaustive list of all my skills and my experience with them.

Experience

Prohealth Nutrition
2013 - 2020

A small retail store that helped to develop my soft skills related to product knowledge and customer interactions.

Additionally, I helped them transition to a modern POS system, and set up a SQL database to help them track sales and discontinue dead stock.

Personal Projects

CuisineQuest – Recipe Search App using an API.
cuisinequest.app/

A Recipe search app using React, Tailwind, and Spoonacular.

I'm in the process of porting this app to NextJS and adding firebase auth. Follow my progress on github!

github.com/SilasCundiff/cuisinequest--next

Zenify – A Spotify Powered particle audio visualizer built in React
github.com/SilasCundiff/zenify

This project uses a particle library and the spotify api to visualize changes in the music real time.

The user can search for a song and watch as the particles react to the music. -- *Planned redesign coming after CuisineQuest.*

Other – Achievements, Accolades, and Completed Courses.

Modern/Advanced React & Redux, React & TypeScript – Stephen Grider
Web, JavaScript, React bootcamps – Colt Steele

My SCTech instructors were so confident in my understanding, they requested me to tutor other students, and **allowed me to teach a class** on the basics of React. One recommended me to my first client.

I maintained a **GPA of 3.9**, and am currently in the process of induction into the **National Society of Leadership and Success**.

Visit my website for more information on my projects!

I recently redesigned it from the ground up, and you can see the old version displayed on it as a project.

Tech stack includes:
NextJS
Styled-components
Lottie animations
